**Snehi Shree Harishbhai,**

Saprem Namaskar.

“The only disability in life is a lack of good attitude”

One thing to note and keep in mind is people can be physically challenged but they cannot be termed as disabled. However, with their temperament to fight the inability they are already a winner in life. They are worthy of being applauded and recognized as equally abled. They just need to be supported positively and motivated morally. It gives me immense pleasure to note that you also are inspired to work in this area.

I wish you all the success for the social cause you want to take up. I thank you for presenting me the “**Limca Book of Records**” and the **Memento**.
